	Total*	Jan-Dec**	Beg. of year*
	5,000	102	9,688

* Estimate number. No official data provided. UNHCR's working estimate is that there are up to 5,000 persons of concern in BiH in terms of statelessness related problems, the large majority of them Roma at risk of statelessness. The change of the estimated figure (compared to 2009 UNHCR statistics) is mainly based on the 2010 survey of the Roma population, conducted by the Ministry of Human Rights and Refugees. According to the survey, the Government estimates that the total number of Roma is around 30,000. Note that reports from Roma groups indicated that the survey did not reach many Roma communities/individuals. Roma NGOs estimate that the population is closer to 75,000. Further, the survey provides that 7% of Roma in BiH were never registered in birth registries, while some 1900 persons have been identified to be in need of assistance for civil registration, which means that they are at risk of statelessness.

** Enrollment in the birth register of citizens.
